● New feature ● Feature enhanced ○ Feature available

● Enterprise feature that runs through the Enterprise Feature Router (EFR). These features will run in the Standard Edition. However, all features running through the EFR will be limited to one shared simultaneous request.

* LiveCycle Data Services (LDS) integration does not include a license for use. LDS must be purchased separately or may be used under the Express Edition license. See the LDS End-User License Agreement (EULA) for information regarding use of the LiveCycle Data Services Express Edition license.

† CFTHREAD is limited to two additional spawned threads in Standard Edition.

‡ Support for multiple instances of VMware or Microsoft Virtual Server.
