We are very excited about hosting CFUnited Express Bay Area on Friday at the JW Marriott in San Francisco. This is a must attend event for any ColdFusion, Flex or Air developer in the area.

There will be seven different sessions given by some of the industries top names. Topics include:

Design Patterns and ColdFusion Presented By Sean Corfield

Hidden Gems in CF8 Presented By Charlie Arehart

Introduction to Flex with ColdFusion Presented By Matt Chotin

Offline/Online Features of AIR Presented By Tony Hillerson

Pragmatic ColdFusion: Build, Test, Deploy Presented By John Paul Ashenfelter

Test Driven Development Presented By Paul Kenney

Using your Whole Brain for Developers Presented By Michael Smith

The sessions will start at 9:30 am, so if you have not registered come a little early and you can register on site, or just visit <https://secure.teratech.com/cfunitedexpress/go/bayarea/2007/register.cfm>
