If you went to sessions at CFUnited-10 that were amazing, or ones that sucked or anywhere in between, then let us and the speakers know with this [session feedback](#) form. You can use it several times - upto once for each session/speaker you attend. So bookmark this post for use during the rest of the week. It only takes a minute or two to complete and I know both we and our speakers read all your comments in detail to see what is going well and what can be improved.

Thanks
