You can now make comments about topics on CFUnited.com!

If you see a topic you would like more information about, go to that topic link and write your comment to the speaker. You will get an email and the speaker will get an email. Also check back often to see what others are saying about all the topics.

Here's a demo to see how to do this. There's no sound (couldn't find my microphone) but you can get the idea. :-)
