Hey Folks, Check out our new CFUnited website! We are excited to release the new design to the public today. Elliott and my team did an awesome job and we will continue to make updates regularly to improve year round.

Also, we will be posting classes this week! So come back and visit to view more changes. www.cfuinted.com

What else are we working on for the future? Elliott, our Software Engineer for CFUnited, is working on a new registration system for all our conferences that will be faster and easier. Also, CFUnited Europe will be posted soon as well.

What do you think?
