CF Meetup: Introducing sebForm, with Steve Bryant

Thursday, April 17, 2008 at 12:00 PM

Meeting URL: <http://experts.acrobat.com/cfmeetup/>

Organized by [Charlie Arehart](#)

Description: The cf_sebForm custom tag simplifies development of simple forms. It separates logic and display, integrates with CFCs, and manages validation. The output is unobtrusive and skinnable.

In this short presentation you will see how to use cf_sebForm to create a simple contact forms, integrate with CFCs, manage validations (both type and business logic), upload files, and reduce spam.
