"AJAX Usability" is a new topic in the Accessibility/Usability/UI Track

Presented By Rachel Maxim

The many user interface enhancements now possible with AJAX bring along a new set of usability problems. [Read More...](#)

Rachel has been designing and developing websites for about 8 years, with a background in graphic design and a current focus on usability and UI design. As a true generalist, she also works with ColdFusion and Flex, and holds the title of Director of Marketing at MainStreet Lender in Chevy Chase, MD

This is Rachel Maxim's first talk at CFUnited. We are excited to welcome her for 2008!
