Our process for picking topics has created a dilemma with our previous track names, so we've decided to change the track titles. The following is a list of tracks for which the topics will fall under.

NOTE: The plan is to announce 3-5 topics for each track today. Stay tuned.

Accessibility / Usability - Section 508, UI best practices, CSS and disabled access
IDEs and other technologies - Includes CFEclipse, Dreamweaver, Wizards, Online Tools, etc.
RIAs - Rich Internet Applications including Flex, Ajax, Air topics
Advanced CF - Advanced ColdFusion topics, an intermediate knowledge of CF required
Bootcamp CF (Fundamentals) - The first half of the the Bootcamp sessions are an introduction to CF. The second half are beginner topics covering basics of CF8 and RIA topics. Also includes any topics not requiring intermediate experience.
Manager - Project Managing, Development Approach Methodologies, Tools, Marketing, Business Issues
Frameworks/CMS - Fusebox and other various frameworks covered, including content management solutions
Deployment/Platform - Integrating with SQL Server, Database Rountables, Operating System, Deployment tools (such as ANT)

TRACK CHAIRS

Accessiblity/Usability - coming soon

IDEs and other technologies - (so new we haven't picked a track chair)

RIAs - Simon Horwith and Joe Rinehart

Advanced CF - Raymond Camden

Bootcamp CF - Nate Nelson

Manager - Shlomy Gantz

Frameworks/CMS - Brian Kotek

Deployment/Platform - Jeremy Kadlec and Nate Nelson
