Related Categories: topics

First round of topics accepted. More to come.

NOTE: These will be posted within 24 hours on the main CFUnited topics page.

So far the track chairs have decided on these topics/speakers for the Deployment /Platform track and the Beginner Track.

## **Deployment/Platform:**

"Building Advanced Search Capabilities for your web site with SQL Server"

Jeremy Kadlec

(New title coming soon) "Server Down - high availability options and trouble shooting" Patrick Quinn

"End to End Performance Tuning" 4 Speakers

"Database Design: Avoiding maintenance and performance headaches" Nate Nelson

Then these topics/speakers will be invited, titles and better details coming soon.

SQL server - Selene Bainum,

SQL tips - Rob Gonda

CFQUERY plus - Tom de Manincor.

"The Ins and Outs of Virtual Servers" - TBD

## **Beginner/Bootcamp:**

We will have 4-5 topics that are bootcamp (the basics), 2 include:

"CF8 Server Monitor Introduction" Charlie Arehart

"Basic ColdFusion Application Debugging" Tyler Fitch

These other topics decided on are beyond introductory, but still beginner

"Image Manipulation with ColdFusion 8 " Pete Freitag

"Leveraging Basic Object Oriented Concepts in ColdFusion" Phill Nacelli

"ColdFusion 8 and AJAX: Easy For You, Better For Users" Matthew Woodward

"Dynamic Presentation using ColdFusion 8" Chaz Chumley
