Hey everyone,

I wanted to give a quick heads-up about MDCFUG's meeting, this Tuesday, June 22nd from 6:30 pm - 9:00 pm.

The meeting will be held at AboutWeb's Training Center: 6177 Executive Blvd., Rockville, MD 20852

ColdFusion Product Manager, Adam Lehman, will provide an update for everything ColdFusion-related. From the release of ColdFusion 9 & ColdFusion Builder to the next release (Sully) to plans for ColdFusion on Amazon EC2. Adam will even demonstrate some of the new features in Sully which include integration with LiveCycle Data Services 3. Finally, Adam will elaborate on the future of ColdFusion and hold an open discussion about what you'd like to see in Link (codename for ColdFusion 10) and Storm (codename for ColdFusion Builder 2). Don't miss this opportunity to interact directly with the ColdFusion product team and provide direction for the next version.

Did I mention that the meeting will include a raffle for CF Builder and CF 9 Standard, only eligible to meeting attendees??

AND did I mention the free pizza and beer???

If you're in the area and don't have plans (which I can't imagine why you would on a Tuesday night :p), make sure you attend the [Maryland ColdFusion Users Group](#) Meeting!!!

Don't forget, Adam Lehman will be one of CFUnited's keynote speakers, so if you want a chance to meet him and chat, this meeting is the most opportune chance.
