Hi there Conference Goers! We started to understand since CFUnited 2006, that attendees really don't want hot dogs, hamburgers, and pizza all the time. So we've worked really hard this year in coming up with a delicious and healthy menu for each day at the conference. We recently went to a taste testing where we were presented with the hotel's suggestions to improve the menus at CFUnited. They took the request very seriously and I'm glad to know I'll be eating very well in June.

Also see Simon Horwith's Blog for a list of the full menus and his comments. Simon is one of our advisory member and he happen to have his office across the street from the hotel at AboutWeb. Thanks Simon for helping us eat all that delicious food. <http://www.horwith.com/index.cfm/2007/5/13/cfunited2007-menu>
