CF Meetup: Building ColdFusion based Flex applications using ZoomFlex, with Grant Straker

Thursday, Jan 24, 12:00pm EST

Meeting URL: http://experts.acrobat.com/cfmeetup/

We'll have two speakers on Jan 24. First up will be Grant Straker on "Building ColdFusion based Flex applications using ZoomFlex". I'll have more on the 6pm speaker later in a separate entry.

Attend this meetup to get a quick intro into ZoomFlex, a ColdFusion based rapid development tool for building Cairngorm based Flex applications. You will learn why the Cairngorm framework is so important in Flex development and get a clear understanding of it's main features and concepts. The session will also take you through some of the best practices with regards to buildling data driven CF / Flex application and how to leverage CF and as a server side engine for Flex applications.
