Hello Talented CFUnited Attendees!

CFUnited is about great topics and learning as always. But its also about networking. When we network we find things that we have in common, whether its about our favorite hardware or our favorite SciFi shows. We build connections with people we have common interests with.

We came up with an idea that is unique for us and will prove to be an interesting experiment.

Museum and Open Mic Night for our talented community.

Let us know if you'd like to participate. You can bring 1-3 pieces of artwork (or photographs). If you would like to start a jam session on stage with a few others, we'd like to see that too. Magic tricks, poems, sculptures, etc are all welcome.

Scott Stroz will be our Open Mic Night host and one of the performers
