Hello everyone,

We have another BOF posted on the schedule!

[BOF: Mango Blog Tips and Tricks](#)

Mango Blog is a popular ColdFusion blog engine. If you are using Mango Blog or curious about it, this is your opportunity to get together with other users to share experiences, tips and tricks. Laura Arguello, the creator of Mango Blog, will moderate this session and you'll be able to ask any beginner or advanced question.

This BOF will be on **Wednesday, July 28th at 9:30 pm**. Make sure to add this in to your schedule!

[Laura Arguello](#) will also be presenting on [Mate Flex Framework: What's in it for me?](#)

Happy scheduling!
