Hello NYC!

Officially the entire CFUnited Stellr team is coming to NYC. That's myself (Liz), Nafisa, and Elliott. Plus a regular helper of our Cara. We have more cool prizes and more goodies to hand out.

http://express.cfunited.com/go/newyork/2009/

Some important changes to note:

Jeff Tapper has needed to cancel. In his place is Javier Julio, an emerging Flex speaker. Javier's topic is temporarily titled "Digging Through the Flex Framework" and promises to be an amazing set of useful skills and real world case studies.

Sean Hanover had a family emergency and will unfortunately not be able to present. Michael Dinowitz a long time CFUnited presenter and always a crowd pleaser has agreed to give his presentation titled "Google Webmaster Tools, What You Don't Know Can't Hurt You"

We have only 4 seats left. If you want to register at the door, you will need to contact us to see if we have space.

Date: Monday 4/20/2009
