This year's State of the CF Union survey is finished!
Thanks for participating! It will help us all determine what versions of CFML are most popular today, plus the top frameworks, tools, etc.

The summary results will be available afterward to everyone who completes the survey so that you can compare yourself with other CFers.

The survey will help you stay up-to-date on the tools that most developers use, top databases and see get to know more about the project issues you encounter and if other developers have them too.

The final results of the survey are [here](). Thanks for taking the survey today.
