

# Sean Corfield - Managing ColdFusion Components with Factories

Posted At : September 26, 2006 8:10 PM | Posted By : Christian Ready

Related Categories: podcast

As everyone rushes to adopt CFCs as "the" way to build the core of their ColdFusion applications, they have to deal with creating, initializing and linking those components - resolving dependencies and managing their lifecycle. This talk will show how to simplify CFC lifecycle management by using various forms of a common pattern - the factory - including factory frameworks such as ColdSpring.
