Use Wiki to Share Your Thoughts

Want to share notes and tips with other CFUnited attendees on sessions that you attended? Go to our new CFUnited wiki to share information and comments with other participants. One great suggestion is to make notes on your favorite sessions on the wiki **during** the event. Just create a wiki page with the session name and your name, and then link it from the main session wiki page. For examples see

http://wiki.cfunitied.com/index.cfm/Advanced_CF

To log into the wiki to edit pages use your CFUNITED user ID (e-mail) and password <http://wiki.cfunitied.com/>

Come Have TeraTech Answer Your Biggest ColdFusion Questions

Come to TeraTech's booth and talk with renowned developers from one of the industry's most respected software development companies! Fill out a

quick survey telling us about your biggest ColdFusion problems, and we will solve them on the spot. Take advantage of an opportunity to learn from an organization that has completed projects for hundreds of clients in every type of industry. If you are just looking for an opportunity to have fun and enjoy yourself, we have you covered there as well. Come take the TT Man Challenge and see if you have what it takes to stop a nasty bug from destroying the city!

ColdFusion 8 Coming Soon!

Adobe is deeply committed to ColdFusion® and the loyal ColdFusion community. The highly anticipated 8th major release of ColdFusion, code-named Scorpio, is coming soon. It will let you develop and deploy next-generation Internet experiences faster and more easily than ever before. **Download the ColdFusion 8 public beta from Adobe Labs today!**

<http://labs.adobe.com/technologies/coldfusion8/>

Food, smoking

Wednesday lunch is 12:30pm – 2:00pm, Thursday lunch is 12:15 pm – 1:45pm, Friday lunch is 12:00pm – 1:30pm, Saturday lunch is 11:30am – 1:00pm. Lunch is served on the expo room foyer.

There is a restaurant and Starbucks in the building where you can buy breakfast. There are many other restaurants near by too - see the show guide for details and a map. Please remember that there is no smoking in the hotel or eating inside of the session rooms.

Parking

If you park in the conference center lot and show your CFUnited badge (exit down by the fences), the cost is only \$5 per day instead of the regular \$8 per day.

Cell phones, Internet

At the Internet cafe there will be Wifi and browsers to

check email. There is Wifi in the session rooms, and the speakers will have an Internet connection for demos. Internet is available in guest rooms for an extra \$10 per day. Also, as a consideration to the other attendees and the presenters, set your pagers and/or cell phones to vibrate or turn them off. Thanks!

Sponsor Spotlight: TeraTech

In addition to helping you at CFUNITED-07, TeraTech works year round helping people who are stuck in their projects, want expert mentoring help, or need ColdFusion or Fusebox training. In fact, in 2005 we won the CFDJ Readers Choice Award for "Best ColdFusion Consulting Company Worldwide" for the fourth year in a row.

If you have been on the Metro in Washington DC you are probably familiar with the signs that show when the next train is coming. Wouldn't it be nice to have the same information at bus stops for when the next bus would arrive and where it is going? TeraTech has worked with NextBus Inc and WMATA to create a system that displays that information at popular bus stops and on web enabled phones. TeraTech has integrated 800 Mb of mainframe data and web applications using XML and ColdFusion. Come learn more at the TeraTech booth or at <http://www.teratech.com/>

Get Control Over Your ColdFusion Hosting Environment

HostMySite.com examined every last detail in designing our VPS plans to specifically run ColdFusion. By providing more dedicated resources to run ColdFusion processes for your application, it greatly enhances the stability of the ColdFusion service. Plus, with 10 GB of disk space and 512 MB of guaranteed RAM your application has plenty of room to grow.

Got Fusebox?

We will be doing a raffle at CFUNITED for any one wearing a "Got Fusebox?" t-shirt, which you can get from <http://www.cafepress.com/fuseboxgear> or the CFUNITED store (very limited quantities at the store)

Fig Leaf Continues To Be One of Most Trusted in Their Industry

Fig Leaf Software, an Adobe premier partner for Web design, development, and training, has consulted thousands of organizations on how to become more effective through the application of web and database technologies. They have also instructed more than

25,000 professionals on the nuances that comprise excellent web design and application programming

Last Minute Changes

You will notice some topics labeled Advanced Track, and they may look like they belong in the Flex, Ajax, or Apollo Track. This is due to some last minute changes in the schedule. We are excited to have so many great topics and we apologize for the overlap. Don't forget to download MP3s of presentations you miss, or purchase the full Presentation Video Screen Capture online after the event.

Schedule Changes

On your schedule map insert please note the following changes:

WEDNESDAY

8:00AM-9:30AM KEYNOTE – Michael Smith & Ben Forta
10:15AM-11:15AM – "Flex 101" is now being spoken by Matt Chotin
During Lunch Hal Helms will give a quick BOF session in Brookside from 1:15PM-1:45PM on "Server-side forms validation library"
We've added another BOF session at 9:00PM-9:50PM by Scott Stroz on "Prototyping Applications with Flex 2.0"

THURSDAY

2:00PM-3:00PM "Prototyping Applications with Flex 2.0" will now be spoken by Kelly Brown (and is no longer starting at 1:45PM, instead @ 2:00PM)
3:00PM-6:00PM is now the following:
3:15PM-4:15PM "The Advantages of Deploying CFML on the Microsoft .NET" by Josh Adams
4:30PM-5:30PM "CFML with.NET: Native Intergration vs. Java-to-.NET Bridge" by Josh Adams
The CF Celebration is no longer a secret. We are going to the National Zoo!

FRIDAY

8:30AM-9:30AM We have added a repeat of Patrick Quinn's presentation "Application Server Analytics"
11:00AM-12:00PM We have added "The Future of BlueDragon and CFML" by Vince Bonfanti
11:00 AM-12:00PM "What Search Engines Want" is now being spoken by Jeff Jones
2:45PM-3:45PM "ColdFusion 8:Case Study" by Monish Sood is now "Deploying and Managing CF Enterprise: A Hosters View" by Byron Mann
